Research Purpose Description

Object: Packet Vision is a public and free dataset of network traffic images, specifically designed to evaluate and compare algorithms for image classification on-the-fly. Further details are available here: <https://romoreira.github.io/packetvision/>

Procedure: the applicant must manually (a) fill, (b) sign, (c) scan this document, and (d) sent it by email to Rodrigo Moreira (rodrigo@ufv.br) or Larissa F. Rodrigues (larissa.f.rodrigues@ufv.br). Upon receipt of a copy of the signed application form, access instructions will be given.

PACKET VISION

License Agreement and Terms of Use

Packet Vision Acceptable Use Policy (AUP)

1. The Packet Vision shall be used only for the Authorized Research Purpose;
2. The Packet Vision, in whole or in part, shall not be published, shared or distributed to other persons, institutions or services, even within the same institution. A separate authorization needs to be signed for every person or institution that uses the Packet Vision;
3. The use of the Packet Vision for commercial purposes or for collaborations with companies is strictly prohibited, as well as any results or information resulting from the data, unless an explicit written permission from the authors of the Packet Vision is provided in addition to this document;
4. The Packet Vision shall be used in accordance with any legislation, regulations or guidelines which are applicable to the Institution and/or the Packet Vision;
5. The publication of any privacy-sensitive information derived from the Packet Vision is forbidden;
6. The Packet Vision shall be kept within the Institution in a secure place and not be copied, used, reproduced, transformed, or stored, in whole or in part, to any publicly accessible computer or electronic information retrieval system;
7. All copies of the Packet Vision shall be permanently deleted after (15) current days 'after the signature of this document or at any time at authors request;
8. For any other aspect not included in this document, or in case of doubt, an explicit written permission from the Packet Vision authors is required.
9. All documents and papers that report on research that uses the Packet Vision database must include an appropriate citation (see <https://romoreira.github.io/packetvision/#four>)

We hereby certify that we have read and accept the Packet Vision License Agreement and Terms of Use, and that we assume the responsibilities associated to the use of the dataset.
